

The purpose of this data collection is to gather student information used to pre-print bar code labels to affix to the ISTEP+ exam during the 2006-2007 testing cycle. The bar code labels will help reduce the time requirements of the exam and will also ensure more accurate student information by helping to eliminate common bubbling errors related to the Student Information Questionnaire.

## Audience

Public schools, accredited Nonpublic schools and Charter schools should report data for students taking the ISTEP+ exam in grades 3-10. The ISTEP+ Coordinator for your district should assist with the collection of the data and the sort selection of the labels.

## Instructions

Complete a data file using the file layout given below. Include all students in your school(s) that you expect to be taking the ISTEP+ exam during the next testing cycle. The required data should be collected, combined into a file, and submitted to the Department of Education through the secured STN Application Center. The file may be any of the formats contained in this document and must contain all the fields in the order described. **In addition, students reported in this file must already have an existing STN number in the STN Lookup.**

The **collection period** will begin on **August 1, 2006** and last until **4:00 August 28, 2006**, which is the **final** date for submission. During this time you are required to submit the file to the Department of Education using the STN Application Center, check the processing results for errors, and check the reports in the message center for accuracy. If there are any errors or inaccuracies you may correct your data file and transmit the file again until 4:00 on August 28, 2006.

The **signoff period** for this collection begins on **August 1, 2006** and ends on **August 28, 2006**. During this period you and your *ISTEP+ Coordinator* are responsible to determine the sort order for the ISTEP+ labels to complete the signoff period. The labels will be printed and returned to the *ISTEP+ Coordinator* in the order selected. The ISTEP+ Barcode Labels Sort Selection can be found in the Application Center under Data Transfer. A sample of the results of the sort selection can be viewed immediately. Users with corporation logins can review the order selected for all schools in their corporation. The default sort order (indicated below by DEFAULT) will be automatically selected and used unless you choose sort numbers 2 or 3.

The 3 choices available for the sort order are:

1. Sort by school, teacher name or equivalent in field 3, student last name, student first name (DEFAULT)
2. Sort by school, grade, student last name, student first name (from the DOE-PS and DOE-STNLookup)
3. Sort by school, grade, teacher name or equivalent in field 3, student last name, student first name
